Derek O'Sullivan KC is recognised as one of the country's leading Personal Injury practitioners. His practice concentrates on very high value catastrophic injury claims.

Derek was named 'Personal Injury & Clinical Negligence Junior of the Year' at the Chambers Bar Awards 2012 and then in 2013, 2014, 2015 and 2016 he was a "Star Individual" in the Chambers Personal Injury ranking for Juniors. He took Silk in 2016 and his practice has grown whilst in Silk. He is a Band 1 Leading Personal Injury Silk in both Chambers and Partners 2023 and a Leading Silk in Legal 500 2023.

Derek's practice concentrates on cases where claimants have been catastrophically injured. He has a particular expertise in relation to brain injury cases- not only cases of severe traumatic brain injury but also "subtle" brain injury cases and cases involving cumulative causes-and spinal injury cases. He is also regularly instructed in catastrophic spinal injury and amputation cases. Derek is familiar with all elements of catastrophic injury cases and is used to leading a team (including extensive medical expert evidence) defending very high value claims.

Derek's seniority and reputation in the personal injury "*marketplace*" has led to numerous requests for him to act as a QC Mediator in personal injury litigation (and litigation or disputes, such as coverage and insurance disputes arising between motor insurers following a multi-vehicle accident, arising out of personal injury claims). He accepts instructions to act as a QC Mediator and uses his long experience of this litigation to assist parties (not just Mediations involving a claimant and defendants but also as between defendants) who require the involvement of a QC Mediator. He has a fair-minded and "hands on" approach which the parties in Mediation conducted by him have found to be of great assistance and is currently instructed to act as a QC Mediator in a number of cases in which the parties have been unable to achieve settlement by the conventional means of a Joint Settlement Meeting conducted by the parties (or have not believed that a JSM would be a worthwhile exercise due to the differences between the parties).
