## Court of Protection - Property and Affairs

---

Francesca routinely advises on complex financial cases, including cases flowing from or overlapping with personal injury or clinical negligence claims.

Francesca regularly receives instructions from a broad range of clients in property and affairs work including: the Official Solicitor; professional and lay deputies; family members and public bodies.

Francesca has particular interest and expertise in cases involving the following: statutory wills; the appointment of deputies; the scope of the authority of a deputy; financial abuse; lasting powers of attorney and gifts.

In ***SAD & Anor v SED [2016] EWCOP 3***: Francesca represented the daughters of P in the first post-MCA case to consider the issue of capacity to revoke a lasting power of attorney (LPA). P decided with capacity to appoint her daughters under an LPA. The evidence before the court indicated that the LPA was executed to guard against the financial consequences of hypomania resulting from her bipolar disorder. P revoked the LPA, and this was challenged by the daughters. The court gave helpful guidance as to the information relevant to the decision to revoke an LPA.

Francesca routinely advises in proceedings flowing from or related to personal injury proceedings. Francesca has recently advised on the management of a damages award for a prisoner that lacks the capacity to manage the award and the management of a damages award for a young man seriously injured in a road traffic accident. Francesca has extensive experience advising in relation to personal injury and clinical negligence claims that require consideration of applications to be made in the Court of Protection in circumstances where the protected party lacks capacity, including applications to authorise any deprivation of liberty arising from the care package.

Francesca advises and represents professional deputies in relation to a range of complex matters including applications for authority to execute a statutory will in complex circumstances, suspected financial abuse, service outside of the jurisdiction, fraudulent activities of a charity and applications to dispense with service.

Francesca provides regular training in this area and has experience of providing training events and seminars to practitioners, including public bodies and professional deputies.
