

Paul Darling OBE KC

Year of call: 1983 | Silk: 1999

Email: paul.darling@39essex.com

Phone: +44 (0)20 7832 1111

"a doyen of his area"

"He's the man you go to if you have a difficult case; he will always come up with an innovative solution and he won't give up, even on the difficult points."

Chambers and Partners Asia Pacific

Paul Darling OBE KC has established a formidable reputation as an advocate in all types and levels of tribunals all over the world. He specialises in complex cases which feature multiple parties, large teams, and high volumes of material, and is often brought in by clients at short notice, late in proceedings. An ability to work with colleagues from any jurisdiction, and to grasp detail, strategy, and tactics quickly has allowed Paul to develop a practice which has taken him to every major jurisdiction, appearing in a wide variety of construction, energy, and commercial matters. Adaptability and focus have contributed to Paul's reputation as a gamechanger, brought in to direct some of the construction and commercial world's most difficult cases. Paul has represented diverse clients in tribunals such as the Commercial Court, the Technology and Construction Court, and the Court of Appeal in London, the High Court and the Supreme Court in Dublin, the High Court in Northern Ireland and Arbitration Tribunals globally. Since the early 1990s he has conducted many arbitrations in Hong Kong, Singapore, and the Middle East. He has acted in ICC, LCIA HKIAC, SIAC and DIAC Arbitrations.

Paul is also called to the Northern Ireland Bar (2004).

Areas of expertise

Construction and Engineering

Adjudication

Commercial Litigation and Sale of Goods

Professional Negligence

Domestic and International Arbitration

Procurement

Health and Safety

Energy and Natural Resources

One of Paul's first ever energy cases was the arbitration between Motherwell Bridge v Highland Fabricators about the Hutton Tension Leg Platform, which focussed on welding and fabrication issues.

Many of his cases have been about the design, construction and operation of power plants and FPSOS.

Many other instructions have been about the full gamut of issues about mines and mining, both deep surface and opencast.

He has done cases about welding and corrosion, some in pipelines and some in other types of structures.

A number of Paul's cases have involved Windfarms. Some were contractual claims about their construction and others to do with defects in them.

He has also conducted a very long and heavy case in the Chancery Division about nuclear reprocessing at Windscale.
