CONSTRUCTION 4.0: Bridging The Knowledge Gap

KEYNOTE SPEAKER

The Rt Hon Lord Hughes of Ombersley, Treasurer, Inner Temple, Former Supreme Court Judge of the United Kingdom

Risk and uncertainty constantly plagued construction industry due to its characteristics of complexity, dynamic and time consuming. The future of construction lies on Building Information Modelling and Digital Adoption. Yet, how do we get from here to there? The conference will discuss the need for the members of the construction industry to bridge their knowledge gap by adopting new practices and methodologies. It will also explore the various solutions for the mitigation of risks and digital solutions to ensure proper record keeping of documents which will be used as evidence in court or arbitration in relation to construction disputes.

PROGRAMME

0830 - 0930 Registration

0930 - 1030 Opening Remarks by the President of Malaysia Inner Temple Alumni Association, YA Dato Faizah Jamaludin

Speech by the Director of AIAC, Mr. Vinayak Pradhan

Keynote Address by The Treasurer of Inner Temple, The Rt Hon Lord Hughes of Ombersley

1030 - 1100 Networking Break

1100 - 1300 **Session 1: The Price You Pay For Not Adapting**

Every year, millions of ringgit in potential profits are wasted because construction companies refuse to adapt to the times. We explore the current old school methodologies used by construction companies and the high risk they carry that ultimately leads to the same sad story throughout the industry.

1300 - 1400 Lunch

1400 - 1600 **Session 2: Constructing Progress**

We explore the various solutions that can help mitigate risks and reward proper, efficient management. How the introduction of digital solutions is not only a godsend for the construction industry but ultimately, a company's bottom line.

1600 - 1630 Networking Break

1630 - 1730 **Session 3: Holistic Dispute Management: Old Concept but New Trend in ADR for Construction Disputes**

Regardless of size, complexities, value and duration, construction projects incessantly carry risks. When one faces a construction dispute, one may be too late to realise that the pre-dispute management (if any) has not been properly executed. This session will explore types of holistic dispute management and avoidance techniques such as Standard Form of Contract and insertion of proper dispute resolution clauses in a construction contract as well as their benefits in the context of construction disputes.

1730 - 1800 Closing Remarks by the President of Lighthouse Club, Kuala Lumpur Chapter

WHO SHOULD ATTEND

Contractors, Developers, Professional Engineers, Contract Administrators, Lawyers, Arbitrators.
