“Trends and Innovation in ADR: The Next 5 Years”

Marion Smith QC and John Denis-Smith will analyse the developments in alternative dispute resolution over the past 12 months and reflect on the issues to be faced in 2017. Are these alternative methods meeting the needs of the parties and the public at large? Topics to be covered include:

- *Should the ambit of adjudication be extended? Seen as a success in the construction sphere, does it work for other types of dispute such as professional negligence disputes? Should the residential occupier exception be removed?*
- *Is arbitration held hostage by due process paranoia?*
- *Is mediation really confidential?*
- *When are allegations of bias and challenges to appointments of arbitrators and adjudicators successful?*
- *What is the extent of the dispute resolver's immunity, liability for costs and can or should (s)he be insured*
- *When can an expert determination be challenged?*
