

# GLOBAL DISPUTE RESOLUTION — CONFERENCE —

Straus Institute for Dispute Resolution  
in collaboration with Prince Mohammad Bin Fahd University

# THE STRAUS INSTITUTE

for Dispute Resolution, in collaboration with Prince Mohammad Bin Fahd University, is proud to welcome you to the Global Dispute Resolution Conference. Conflict is both a global reality and a personal experience. But how conflicts are addressed varies from country to country, region to region, and even person to person.

This conference presents a unique opportunity to explore the critical connections between culture and conflict resolution from a global mindset. During these two days scholars, lawyers, and ADR practitioners will share how their unique perspectives on mediation, negotiation, and arbitration have the potential to shape and sometimes transform our world.
