Court of Protection statistics 2

Court of Protection statistics

The most recent statistics for the Court of Protection have now been published for the period April to June 2026.

In headline terms, they show an increase in applications made and decrease in orders under the Mental Capacity Act 2005 over the 3 months. There were 10,647 applications made in April to June 2026 (up by 10%) (28% of related to applications for appointment of a property and affairs deputy) and 14,540 orders made (down by 5%).

In relation to deprivation of liberty, and bearing in mind that AGNI was decided at the start of June, an early data point as to its impact can be seen in the fact that the 1,864 applications relating to deprivation of liberty under the Mental Capacity Act 2005 represented a decrease of 13% on the number made in the same quarter in 2025.¹ There was also a decrease by 13% in the orders made for deprivation of liberty over the same period from 6,344 to 5,507. It is likely that we will see a continued – significant – decrease in applications for community DoL orders, and the position in relation to s.21A applications will be more mixed.

¹ Unfortunately, the underlying data table does not show the breakdown of those applications.
